7 Reasons To Love Geode

- 1 Geode uses smart contracts to REPLACE: **Amazon, LinkedIn, Patent** and **Copyright, Facebook/Twitter**, your **Email**, your favorite **secure messaging** apps, and Craigslist for **private crypto sales**.
- 2 Advertisers pay you directly on Social and in your Inbox. Buy and sell directly with each other at the Market with no one taking a cut of the profits. Post your resume and intellectual property and have it endorsed for authenticity or find your next star team member.
- 3 Developed and maintained by an **all-volunteer community** of people passionate about empowering the individual.
- 4 **Geode was built without investors**, making GEODE Coin **least likely to be deemed a security**.
- 5 Built on Substrate: open source, audited, stable and well thought out code that solves a number of challenges in previous blockchain architectures.
- 6 Conviction Voting ensures that the chain community can grow into stable governance, while limiting whales from dominating any vote.
- 7 Founding team has strong, experienced and patient leadership well versed in cutting edge technical development, program management, legal and regulatory issues, and community leadership.

Life and Work

Register your claims of expertise, work history, education/training, good deeds and original intellectual property to the Geode Blockchain. Endorse the authenticity of other users' claims. Look up resumes by account. Search claims by keyword to discover people and their contributions to the world.

Profile

Set or update your Geode Profile, look up the profile for a specific account, and search profiles by keyword.

Social

Follow your favorite accounts and post your own public broadcast messages that cannot be deleted, altered or censored! While you are at it, isn't it time you got paid directly for your time and attention? Let people know what you are interested in seeing and let advertisers pay YOU directly to include their posts in your feed.

Messaging

Private short form messaging between Geode accounts! While you are at it, isn't it time you got paid for your time and attention? Let people know what you are interested in seeing and let advertisers, recruiters, and others pay YOU directly to send DMs to your inbox.

Market

Buy and sell products and services on the Geode Market where there is no middleman taking a cut of your profits! Books, Music, NFTs, Clothing, Food, Services of all kinds, even Housing! Buy and sell all the things you need to live your best life right here on Geode.

Referrals

Create and manage referral programs using GEODE tokens as a reward. The referral program creator seeds the contract with a pot of reward money and determines every aspect of the rewards for up to two levels of referral rewards.

Private Exchange

Buy and sell cryptocurrencies privately among the community. No escrow. List what you are selling and what you want for it. Message to finalized the deal and then handle transactions offline.

Reporting

Report Suspicious activity.

Expertise & Patience

Dr. Amy K C Messegee, PhD (CEO)

Dr. Amy Kathryn Colleen Messegee, known as Guru Kathryn, is an American-born humanitarian, advisor, author, composer and artist with more than 22 years of industry experience. Her summer job at 16 was doing scientific research at NASA. Before her 25th birthday she earned her Ph.D in Mathematics (Specialty: Nonmonotonic Reasoning) and was speaking to conferences on human reasoning and how to make the infinite temporarily finite. A hyper-polymath, her career has enjoyed a ride through six different industries where she gathered the expertise and the patience to undertake a project as big and as important as Geode. In each of these, the theme is always the same: aggregating seemingly unrelated perspectives to distill a new approach for accelerated results. She has published 16 books, hundreds of articles and papers, dozens of unique art pieces and released 6 albums.

Mr. Thomas R Messegee (Chief Scientist)

Mr Thomas (Tom) Messegee, is an American-born engineer, scientist and language enthusiast. He began his career in the US Navy's Nuclear Power program, undertook critical technical missions on our nations submarines, and enjoyed a total 42 years of experience in the Defense industry. He has worked with technical program development and deployment from under water to on orbit in aspects from software to hardware systems alike. Complex, and novel technology developments in highly regulated and consensus oriented environments were the norm as he saw projects from design to launch and operation.

Over the years, this husband-wife team has worked together on several projects over many different industries, gathering the expertise that they bring to the Geode development today.

TWO Airdrops Planned...

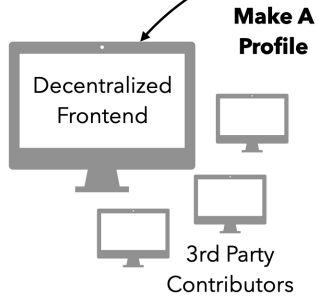

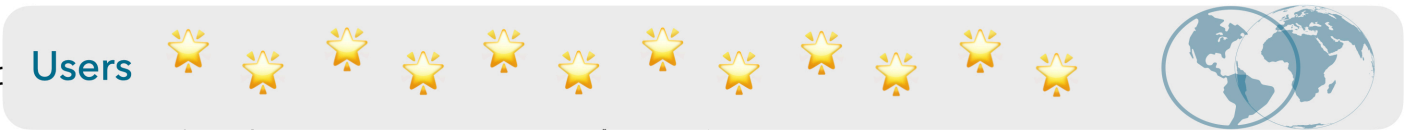

1. One in 2024 prior to listing on exchanges to build the community of app users
2. And one after listing on exchanges to build the overall global community

Initial Airdrop 2024 Concept (In Development)

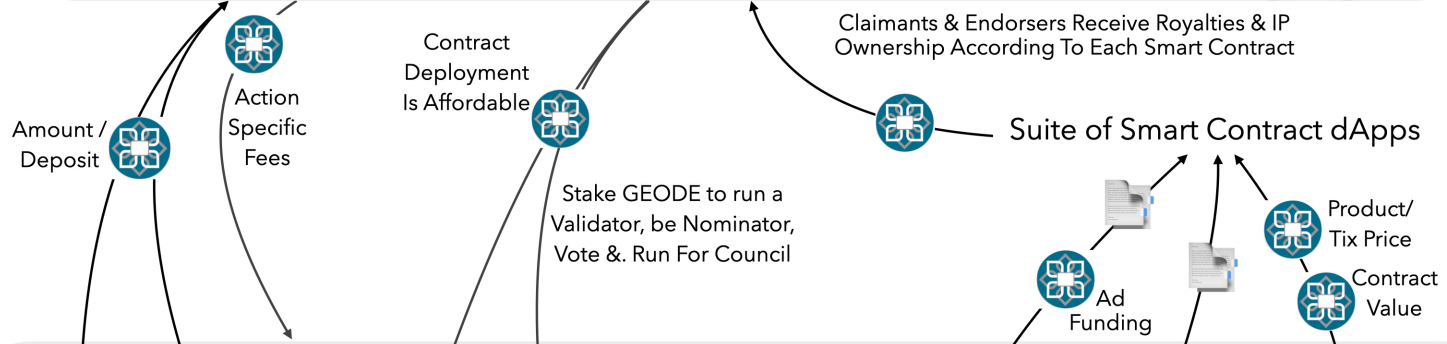

- ▶ **Purpose:** Onboard users who make the most of the dApp suite daily and who onboard their friends
- ▶ **Metrics:** (1) Total accounts created, (2) Active Daily Accounts and (3) App-specific metrics such as creating your resume on Life & Work, entering user settings on Social, Private Messaging, and Market, etc.
- ▶ **Concept:** A 90 day airdrop and contest with over 1 BILLION coin given away
- ▶ **Claims:** Coin will be claimed via an airdrop-tailored smart contract & page on the Geode decentralized portal that will reward users for making an account, entering their resume, setting up critical settings that advertisers would like to see, and onboarding their friends.

Airdrops also help distribute coin more widely and ensure decentralization!

Users can access features & participate in community governance in a user friendly front end

50% of Genesis Tokens

The Block & Purpose Foundation

Funding projects in global peace, energy and other areas that forward humanity's long term interests

Geode is **minted** at the prorated inflation rate each **Era** and distributed to nodes and the treasury as a royalty

 = New Smart Contract
 = Real Human Beings Creating & Collaborating
 = Geode Coin: Measuring **Productivity & Real Value Creation**

The Block & Purpose Foundation was created in the Genesis block of the Geode Blockchain with the mission of funding high risk / high reward projects in critical areas that forward humanity's long term interests. The foundation....

- Cannot sell token or buy tokens, but can accept token donations.
- Can award and transfer token to projects chosen by the Foundation.
- Advance public disclosure of all coin awards.
- Award criteria is set by the Foundation, managed by Thomas and Kathryn Messegee.
- Projects receiving token awards may sell tokens to fund their efforts in their local fiat currencies or may use the tokens themselves to forward their efforts in accordance with their award statements of work.

Areas of Focus

Global Peace

- High Risk / High Reward projects that forward peace for humanity
- From the neighborhood to the nation-state level

Energy

- Novel Vehicle Propulsion
- Novel Solar Concepts
- Approaches To Fusion

The Block & Purpose Foundation was funded with 50% of all coin minted in the Genesis block and Validator/Nominator rewards going forward.

CRC Scorecard - Geode Blockchain & The GEODE Token

This is how Geode's scorecard would look IF the Crypto Ratings Council's Securities Law Framework and Scorecard template (found at https://assets.website-files.com/5d766f847039d787f8a99a02/609998f89636a3f99c8429c6_CRC%20Securities%20Law%20Framework.pdf) were used to review the GEODE Token and associated blockchain. As projects cannot request review by the CRC, we undertook the scorecard ourselves to assess our own rating. In all of these, Y = YES, N = NO and X = Not Applicable. **This rating is as of February 28, 2024. The Geode Blockchain is one year Post-Launch.**

HOWEY PRONG TOTALS BY COLUMN >>>		50	140	(80)	(95)
3 or more prongs have scores below 100		(least likely to be deemed a security)		SCORE = 1	

- ▶ **Securities Analysis:** Based on the Howey test, and the Coin Ratings Council Scorecard, GEODE coin is least likely to be deemed a security.
- ▶ **Commodities Analysis:** The GEODE token is a commodity. CFTC Registration is not recommended.
- ▶ **Money Transmitter Analysis:** The Geode Blockchain Network is not a money transmitter according to the laws of each US state and international law.
- ▶ **Tax Liabilities:** Users will be liable for tracking and reporting token income, according to its local fiat value, and for collecting and remitting any applicable taxes as appropriate.
- ▶ **KYC/AML & Vigilance:** Users are encouraged to report suspicious activity in the Suspicious Activity Reporting app on the system where when evidence of illegal activity is present. Legal authorities can contact Geode Legal to be given special access to these reports to act on them.

We take our legal and regulatory status seriously and work to stay compliant.
